PROFESSIONAL SUMMARY

Full Stack Developer skilled in designing and building scalable web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Proficient in delivering end-to-end solutions across frontend and backend layers, with a strong emphasis on clean code architecture, application performance, and user-centric design. Proven problem-solving ability demonstrated through 500+ algorithmic challenges solved and multiple hands-on full-stack projects. Seeking to apply technical expertise and a collaborative mindset to drive impactful software solutions in a fast-paced development team.

EDUCATION

Aditya University

Bachelor of Technology, Information Technology; CGPA 9.47 / 10.00

Jan 2023 — Apr 2027

Kakinada, AP

Prathibha Junior College

Intermediate (Mathematics, Physics, Chemistry); Score: 96.8% / 100%

Jun 2021 — May 2023

Rajahmundry, AP

SKILLS

Programming Languages	C, C++, Python, Java
Frontend Development	HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js
Mobile Development	React Native
Backend Development	Node.js, Express.js, RESTful APIs
Databases	MySQL, MongoDB
Tools & Technologies	Git, GitHub, VS Code, Docker.

WORK EXPERIENCE

Frontend Developer

May 2025 - July 2025

Technical Hub, Aditya University

Kakinada, AP

- Developed **SkillHance**, a web-based platform delivering structured learning resources and career guidance to engineering students.
- Engineered interactive features including subject insights, quizzes, and study-abroad guidance modules, improving user engagement and overall learning experience.
- Built a responsive, user-centric interface using HTML, CSS, and JavaScript, ensuring cross-device compatibility and seamless navigation across desktop and mobile platforms.
- Collaborated cross-functionally with peers and mentors to refine features, troubleshoot issues, and enhance platform usability and performance.
- Implemented frontend development workflows, version control practices, and deployment processes in a real-world, production-oriented environment.

PROJECTS

MailOra (Github Link)

Mar 2026 - Apr 2026

- Built **MailOra**, a full-stack web application that automatically tracks internships, jobs, and hackathon opportunities directly from user email inboxes.
- Implemented AI-based email classification to extract deadlines and relevant links, triggering automated reminders to prevent missed application windows.
- Designed and developed a personalized dashboard delivering tailored job recommendations and streamlined application tracking.
- Tech Stack: React.js, Node.js, Express.js, MongoDB.

SkillHance (Github Link)

Mar 2025 - Apr 2025

- Built **SkillHance**, a full-stack educational platform structured around academic branch selection, core subject resources, programming fundamentals, and career pathway guidance for engineering students.
- Architected and implemented interactive modules including subject-wise resource libraries, self-assessment quizzes, and study-abroad guidance content.
- Developed a fully responsive frontend with HTML, CSS, and JavaScript, optimizing for cross-device accessibility and consistent UX across breakpoints.
- Tech Stack: React.js, HTML, CSS.

CERTIFICATIONS

MongoDB Developer Certification – MongoDB	2026
GitHub Foundations – Microsoft	2026
Oracle Certified Foundations Associate : Java – Oracle	2025
Oracle Database Foundations Certification – Oracle	2025
Red Hat Certified System Administrator (RHCSA) – Red Hat	2025
HTML & CSS IT Specialist Certification – Certipoint / Pearson	2024

ACHIEVEMENTS

- Solved **500+ Data Structures and Algorithms problems** on **LeetCode**, demonstrating strong analytical and algorithmic problem-solving capabilities.
- Solved **200+ problems** on **GeeksforGeeks**, strengthening proficiency in core data structures and optimization techniques.
- Achieved **5-star in SQL** and **4-star in C** on **HackerRank**, with additional badges in Problem Solving and JavaScript.
